# Request for Water Service

**This form is for people who live beyond our existing service area.**

The Tuppers Plains-Chester Water District is keeping record of all people who request water. The information requested below will be used to determine where the interest is for rural water service. If you know of others along your road who wishes to have water service, give them a copy of this form to send in. Please be very clear on your location on the road, as this will help us to locate you. Every location has to have a service address. One service address cannot be shared by two dwellings.
